ColorMatic Styles

ColorMatic comes in 15 stunning color variations to give you a variety of options to suit your varying design needs. The ability to change colors on the fly is intended for demo purposes only, you should set the following variable in the template's index.php file when you have chosen which style you intend to use. To check out the color variations either pull down the Open Control Panel tab at the top of the page, or click on one of the screenshots below:

$default_style = "style1"; // style1 | ..... | style15
